

The Daily Gazetteer.

NUMB. 3285

TUESDAY, OCTOBER 19. 1742.

Yesterday arriv'd a Mail from Holland.

Moscow, Sept. 27.

ARON Neuhaus, Envoy Extraordinary from his Imperial Majesty, has notified his Arrival to all the Foreign Ministers, except the Marquis de Botta. Some People imagine that his Business here is to engage her Imperial Majesty to offer her Mediation for composing the Differences that have arisen in

Germany. The new French Minister receiv'd some Days ago, some Dispatches of great Importance, upon which he conferred with the Ministers, and propos'd a new Scheme for restoring the Tranquillity of the North; which, however, met with a very indifferent Reception. It seems, our Court think, that those who kindled the War in Sweden, ought not to be trusted as Mediators in Russia. Our last Advices from Constantinople assure us, that what has been reported of the Porte's granting Subsidies to Sweden has been absolutely without Foundation, the Grand Vizir having never offer'd any Thing beyond the good Offices of his Master for re-establishing Peace.

Stockholm, Oct. 12. His Majesty having been pleas'd to appoint Commissioners for the Trial of Count Lewenhaupt, and to place Veldt-Marshal Hamilton at the Head of this Commission, the Count was brought before them the Day before Yesterday, and was presented with a Copy of the Charge against him, to which he gave a very clear and satisfactory Answer; upon which he was released from his Confinement, and permitted to retire to the House in which he lived when he was Marshal of the Dyet in 1738. The Affair of the Succession is still much talk'd of; and it is believed that one Reason why our Court is so desirous of procuring the Interposition of that of Great Britain in making Peace with Russia, is to prevent any Propositions of this Kind coming from that Quarter. A great Part of our Cavalry that march'd round from Finland are arriv'd, and the rest are daily expected. We continue our Military Preparations here, as if we were not yet weary of a War so disastrous as this has been.

Castel-Gandolfo, Oct. 5. The Pope arriv'd here from Rome on the 27th, and has spent the Time ever since very agreeably in receiving or paying Visits. We have been for a long Time under the utmost Uneasiness about the Conduct of the Spanish General in Lombardy, who entertain'd us daily with rekindling the War in that Part of Italy. But we are now pretty easy, in consequence of an Express arriv'd from Madrid, the Dispatches brought by which have inclin'd his Holiness to grant the Spaniards Quarters for five Months, provided they maintain very exact Discipline, and do not pretend to pass the Panaro.

Moscow, Oct. 10. Count Aspremont in refusing to march beyond the Panaro follow'd only the Instructions given him by his Sardinian Majesty, when he set out for Turin; but upon his dispatching a Courier to inform the King of the Propositions made to him by the Veldt Marshal Count de Traun, his Majesty immediately sent him Instructions to obey the Veldt Marshal in every thing, it being his Intention to act as vigorously in the Concerns of the Queen of Hungary as in his own.

As soon as Count de Traun was inform'd of this, he sent an Officer to Cardinal Marini, to desire that all Necessaries for an Army of 18 or 20,000 Men might be immediately provided at Imola.

From his Sardinian Majesty's Camp at Conflans in Savoy, Oct. 10. His Majesty never appear'd with greater Lustre than he does at present. The Spaniards are incamp'd about three Leagues off, and are strongly intrench'd; they abandon the Country every where at our Approach, and by the Dispositions they are making, it is evident they intend to retire into Provence. His Majesty has order'd 20,000 Fire-arms to be distributed amongst the Inhabitants, who know very well how to use them, as the Spaniards will experience in their Retreat. The Baron de Villeroy is very much regretted; he charg'd at the Head of a new-raisd Regiment of Dragoons three Squadrons of Spanish Horse, whom he entirely defeated, tho' in the Beginning of the Action he receiv'd a Musket Shot, of which Wound he is since dead. There never was a Pro- more happily executed than this of his Majesty for the Recovery of the Duchy of Savoy, in which all the Officers have done their Duty with surprising Alacrity and Success; and the Spanish General, tho' he is certainly a Man of great Capacity, finding himself unexpectedly attack'd by a superior Army, has resolv'd to abandon his new Conquest, notwithstanding he receiv'd a considerable Reinforcement two Days ago.

From the Head Quarters of the Austrian Camp at Tpel in Bohemia, Oct. 10. We shall march to-morrow in order to take Possession of the Passes of Carlsbad, where we expect to be join'd by the Saxon Auxiliaries. The Grand Duke has thought proper to detach the Regiments of Kevenhuller, Palfi, and Neuperg, together with a Body of Troops commanded by Baron Trenk, towards Bavaria. This Detachment, which will arrive the Day after To-morrow at Chamb, will continue its March the next Day towards Donauhoff, under the Command of Major-General Serbelloni. That General has already given Orders to repair the Roads, and Bridges along the Danube; and we expect that Affairs will suddenly take a very extraordinary Turn in those Parts; and that Marshal Seckendorff will be oblig'd to shut himself up in Munich.

From the Head Quarters of the French Army near Schalckenwerda, Oct. 11. We continue our March directly towards Prague, in order to join Marshal Broglie, who is then to command the Army in Chief, and to execute some Enterprize of Importance. We have for some Days been in great Want of Provisions, but expect to be soon in a better Condition; in the meantime, Part of our Baggage, and some unnecessary Attendants on our Army, have been sent back to Franconia. Our Officers express some Uneasiness as to the Conduct of M. Broglie, who, according to Custom, has separated his Forces, in order to take Possession of several Posts, which may possibly expose him to the Attacks of the Austrians.

Frankfort, Oct. 21. There are now two Mails due from Vienna and the Army in Bohemia. The Court, however, have received some Expresses from Marshal Maillebois, the Contents of which are not published, whence we conclude them none of the best. We begin to see plainly, that he will be oblig'd to return shortly, without being able to perform any Thing considerable. A vast Quantity of Baggage belonging to his Army, with 2500 Horses, and 1500 Carters, arriv'd on the 14th at Wertheim, under an Escort of 200 Dragoons. These People pay very honestly for what they have, and observe an exact Discipline; but it has, however, been thought necessary to send a Detachment of some Hundreds of the Troops of the Bishop of Wurzburg, to take Post about Half a League from thence, in order to prevent any Disorders.

P. S. Two Couriers are just arriv'd from Bohemia with bad News, the Circumstances of which are industriously concealed.

Ratisbon, Oct. 18. We have certain Intelligence here, that the Queen of Hungary intends to form a great Army in Bavaria. General Serbelloni is arriv'd at Donauhoff with 5,000 Men, and General Trenk with the same Number is advancing to join Baron Berencian. An Express is dispatch'd to carry this unacceptable News to Marshal Seckendorff, whose Army does not consist of above 9,000 Men; and who will, consequently, be oblig'd to retire, as soon as he receives it.

Paris, Oct. 17. Cardinal Fleury was last Week at Versailles, from whence he return'd on the 12th to Issy. On Saturday last the Count de Clermont set out for Flanders. They write from Valenciennes, that Marshal Noailles has flood'd all the Meadows and Country thereabouts from St. Sauve, where he caus'd the Dyke of the Scheldt to be pierc'd as far as St. Guilain, which makes about two Leagues round. By this Means Valenciennes and Conde are put under Cover, the Road to both being destroy'd. We learn from Grenoble, that Don Philip is daily expected there, and that his Army is already begun to march into Dauphiny; so that there is an End of the Expedition into Savoy, and all the fine Things we expected from it. It is said that the Squadrons equipping at Breft, Rochford, and Toulon, are to be double mann'd; and, according to all Appearance, the Thoughts of an approaching Rupture, and of a general War, occupy entirely our new Ministry.

Hagen, Oct. 25. Prince Charles-Augustus-Frederick of Waldeck, General of Foot, took his Oath Yesterday before the Council of State, as Colonel and Captain of the Second Regiment rais'd by him for the Service of this Republick. The same Day the Count de Podewiles, Envoy Extraordinary from his Prussian Majesty, confer'd with the Lords of the Regency, and presented a Memorial. M. Hopp, our Resident at London, has obtain'd Leave to return for a few Weeks, to settle his Private Affairs. Letters from Amsterdam inform us, that the Anana, one of our East-India Ships in its Return from Batavia, was lost on the Coast of France near Boulogne; but that most of the Crew were sav'd, and that it was hop'd a great Part of the Cargo might be also recovered.

SCOTLAND.

Edinburgh, Oct. 12. Yesterday being the Anniversary

of his Majesty's Coronation, the Cannon of the Castle were discharged (under a display'd Flag) which was answer'd by Colonel Howard's Regiment in Canonade. The Lord Provost and Magistrates order'd the Musick Bells to play till six at Night, when the Great Bells succeeded them till eight, and in a Tavern drank the Health of the Day, and all proper Tosses.

Dr. BATEMAN's Original and ONLY TRUE Wholesale and Retail WAREHOUSE at the Printing-Office, facing the South Door of Bow-Church, the Lower End of the Church-Yard, from Cheapside, LONDON.

THE Daily Success which has constantly attended the Taking Dr. BATEMAN's PECTORAL DROPS, in the several Distempers of Colds, Coughs, Pains in the Breast, Limbs, and Joints; has gain'd them a universal a Character, that few Families care to be without them in their Houses. — Besides the Distempers above-mentioned, there is no one Medicine, since the Discovery of the Art of Physick, that will give a Speedier Relief and Ease in all Rheumatick Pains, Gout, Stone, Gravel, Cholick, Fluxes, &c. Innumerable Instances might be given of the Happy Effects thereof, but we choose to refer to a Book, call'd, *Of the Treatise of the Virtues of Dr. BATEMAN's PECTORAL DROPS*, given Gratis, at the Warehouse above-said; where all Shop-keepers, &c. in any City, Town, or Village, where these Drops are not already Sold, may be supplied, with good Allowance to sell again, by Directing or Sending to the PATENTEE,

BENJAMIN OKELL,
Wm. and CHURCH DROG.

☞ The Surprising Encouragement, which by constant Success, these most Valuable Drops have, for upwards of Twenty Years, met with, not only in Great Britain and Ireland, but in all Parts of the West-Indies, and other Foreign Countries; has lately induced several mean and mercenary Pretenders to Counterfeit them; and by imitating our Seal, Bill of Directions, and Show-Boards, with our Method of Advertising, as near as they can or dare to do, without making them the same, thereby impose their dangerous Compositions upon the unwary and credulous Shop-keepers both in Town and Country, for the True and Genuine Sort.

The PATENTEE and Company therefore, in Gratitude for the universal good Reception they have so long met with, and for the Safety of those who for the future may be defraud of using the same, think themselves absolutely obliged to give this necessary Caution;

Which they earnestly request may be observed,

THAT the Bottle they Buy is not only Sealed with the Boar's Head, but has also these Words round it, BY THE KING'S PATENT, as in the Margin; and also that the Names of the PATENTEE, Ben. Okell, William and Church Drogh, be in the Bill of Directions given with each Bottle; without which you may be assur'd it is a notorious Counterfeit, and may be of the most dangerous Consequence.

N. B. That these DROPS are also Sold Retail (as well as Wholesale) at the Warehouse aforesaid, at One Shilling the Bottle, containing three Doses.

The most fam'd and long Experienced Chymical Drops For ASTHMA's and CONSUMPTIONS,

That have been Sold so many Years, and with such common Success and Benefit to the Publick, by Mr. Parry, and his Predecessors, in Boar's-Head-Court, Fleet-street; and, since Mr. Parry's Decease, have been still are sold in London only by Mr. Read for 3 s. 6 d. a Vial, at his House in White-Fryars. (N. B. To be in just by the Sun Tavern in Fleet-street, and it is a great Corner House in White-Fryars; JAMES READ, in great Letters, is wrote over the Door.)

They are a most Incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA of the longest standing:

And of all Sorts of CONSUMPTIONS, even when far advanced, as not to be cured by any other Medicine in the World.

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffering Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; and admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Stiffness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when feared. They are also exceeding nutritive and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than to occasion a good Breathing in the Night.

And by Parity of Reasoning this most excellent Medicine (and is well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning; and also for the Chin-Cough, and Hooping-Cough in Children, having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and the evidence of the true Efforts of all Counterfeiters or Imitators) for the Ailments above-mentioned, and allowed to be so by the most judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made for the Common Good.

N. B. They are sent to many Parts of the World, particularly to his Majesty's Colonies in the West Indies, &c. Good Allowance is given by the Dozen to sell them upon. They will keep good many Years, well cork'd, in any Climate.
